TheRenewableNetwork.com

And you'll receive further details.

BIODIESEL • ETHANOL • GASIFICATION

Visit with local biofuels equipment manufacturers

Learn about starting a small-scale biofuels operation

Hear about new funding opportunities

Workshop Agenda:

This workshop includes a presentations and "hands-on" sessions featuring biofuels experts, business and government leaders, educators, and equipment manufacturers from Wisconsin bringing biodiesel, ethanol and gasification systems that are available today. There will be several small-scale systems being demonstrated.

7:30 AM Registration (Coffee and Donuts)

8:00 AM to 12:00 PM Presentations to include:

- Answers to your regulatory questions
- Handling, storage and safety for small-scale production
- USDA and state funding opportunities
- What Wisconsin is doing to help small producers
- Algae in Wisconsin

1:00 PM to 3:30 PM Afternoon Session to include:

- Biodiesel systems
- Small-scale ethanol equipment
- Pellets and briquettes
- Biomass gasification systems

To become a member of the WSSBPP go to:
<http://greendieselwisconsin.org/> and click on the
Small-Scale Producer Registration tab and complete
the form. Registration for WSSBPP is free.
